A new derived column called Performance Category was created using DAX formulas to classify employees into High, Medium, and Low performers.

KPI cards were used to display total employees, average salary, and average performance score

This chart shows department-wise average salary comparison. IT and Finance departments show higher salary trends.

This visual helps identify the best-performing departments based on average performance scores.”

The pie chart represents employee attrition distribution between employees who stayed and employees who left.”

This visual shows employee distribution across WFH, Hybrid, and Office work modes

Conclusion

“This dashboard helps HR teams make data-driven decisions regarding employee performance, retention, and workforce management.”
